

# IT Newsflash

**Effective Mid-Day Monday, 4/6/20**

## **Streamlined Nursing Documentation for State of Emergency**

The following changes will be made to Epic, in accordance with the new CHS State of Emergency Nursing Documentation Policy:

The following **ED Documentation** Elements will be available, but **NO LONGER REQUIRED**:

- Dysphagia Screen
- HIV Testing
- SBIRT Screen
- CRAFFT Screen (Peds)
- Stroke Screen
- Abuse Screen
- Immunization Screen (Peds)
- Braden Skin Assessment

The following **Inpatient Documentation** Elements will be available, but **NO LONGER REQUIRED**:

### **Admission:**

- ADL & Assistive Device Screens
- Care Giver
- Discharge Planning
- Functional Screen
- HIV & Hepatitis C Screens
- Flu & Pneumonia Screens
- Isolation Precautions
- Patient Belongings
- Values Assessment
- Psychosocial/Spiritual Care Referral

### **Shift:**

- Morse Fall & Risk for Injury Assessments
- Braden Skin Assessment & SKIN Bundle
- Pain Assessment/Reassessment
- Nutrition Intake
- Patient Positioning Assessment
- Sepsis Screening
- Isolation Precautions
- Stool Assessment

A new **Disaster Navigator** will be made available for Inpatient Nursing that reflects only the streamlined documentation elements they need to complete.

All **Care Plan & Patient Education** BPAs will be **TURNED OFF**.

All **Sepsis and Pain Reassessment Reminders** will be **TURNED OFF**.

The following changes will be applied to **all AVS's**:

- All nursing documentation requirements for printing the AVS will be **TURNED OFF**.
- The patient signature line will be **REMOVED**.
